ZAVEN GHAZARYAN

Front-End Software Engineer

📞 +37477231590   @ zav.ghazaryan01@gmail.com   🔗 https://www.linkedin.com/in/zaven-gh/   📍 Yerevan, Armenia

EXPERIENCE

Front-End Software Engineer,
Cognaize Engineering LLC

📅 09/2021 - Present   📍 Yerevan, Armenia

- Developed and maintained scalable front-end applications using **React**, ensuring responsiveness and cross-browser compatibility
- Collaborated with designers and product teams to implement clean, user-friendly UI components aligned with UX best practices
- Ensured high code quality through unit testing, code reviews, and performance optimization techniques
- Modified and extended existing **Python-based models** to align with evolving project requirements
- Contributed to API integration efforts, building robust backend connections using **Python and RESTful services**
- Implemented and maintained **Terraform scripts** for managing infrastructure-as-code and streamlining project deployments
- Participated in Agile ceremonies and sprint planning to align development efforts with business priorities
- Worked closely with QA and DevOps teams to ensure smooth releases and environment stability

EDUCATION

Bachelor's Degree in Information Technologies
European University of Armenia

📅 2019 - 2024   📍 Yerevan, Armenia

- Built a strong foundation in computer science principles, including data structures, algorithms, and object-oriented programming
- Gained hands-on experience with front-end and back-end development technologies
- Studied databases, operating systems, networks, and IT infrastructure
- Completed projects involving web development, application design, and system analysis
- Applied Agile and team-based methodologies in collaborative software projects
- Developed problem-solving and critical thinking skills through real-world case studies and technical challenges

SOFT SKILLS

Collaboration & Teamwork

- Ability to work effectively with cross-functional teams (design, QA, product, DevOps)
- Comfortable participating in code reviews, pair programming, and group problem-solving

🧠 **Problem-Solving & Critical Thinking**

- Approaching challenges logically and creatively
- Breaking down complex problems into manageable tasks

🔄 **Adaptability & Flexibility**

- Comfortable working in rapidly changing environments (e.g., Agile, startups)
- Willingness to learn new technologies and switch between projects or roles when needed

🧑 **Patience & Persistence**

- Staying calm under pressure and not giving up when debugging or resolving difficult issues
- Learning from mistakes and iterating based on feedback

🎯 **Attention to Detail**

- Writing clean, maintainable, and error-free code
- Noticing edge cases and ensuring test coverage

INTERESTS

- ✨ **Football**
- 💎 **Game Development**
- 💡 **Sports**

SUMMARY

Detail-oriented and creative Front-End Software Engineer with a strong foundation in modern web technologies including JavaScript, React, HTML5, and CSS3. Skilled in building responsive, user-centric interfaces with a focus on performance, accessibility, and cross-browser compatibility. Experienced in collaborating with design and backend teams to deliver seamless, scalable web applications. Passionate about clean code, UI/UX best practices, and continuous learning in a fast-paced development environment.

KEY ACHIEVEMENTS

💎 **Your Achievement**

💡 **Improved Front-End Performance**

Optimized React-based applications, improving page load times and responsiveness across devices, resulting in enhanced user satisfaction and performance scores.

💡 **Streamlined DevOps Processes**

Implemented and maintained **Terraform scripts** to automate project deployments, reducing manual configuration time and improving environment consistency.

💡 **Backend Integration for Scalable Applications**

Contributed to **API integration** using Python and RESTful services, supporting seamless data flow between front-end and backend systems.

💡 **Led Company Futsal Team**

Captained the Cognaize Futsal Team in several tournaments, helping build team spirit and collaboration.
